

Colourful Gardens and smiles galore at McCormick Nursing Home

MCCORMICK NURSING HOME

LFHS Volunteers have been tending and maintaining the gardens at the McCormick Nursing Home since 2006!

Colourful, well-tended gardens add to the enjoyment of residents and staff and bring a smile to many faces.

Volunteer tasks include spring and fall cleanup ...weeding, edging, mulching and some planting.

Typically this involves a part day in spring and fall and occasional effort once in a while during the summer.
