Talk Title: Range of topics on design, successful garden installation & maintenance, various talks on specific plants including natives

Brief Description: List of topics available on request:

- Garden design: low maintenance, wildlife, entertaining, enchanting (adding humour & whimsy)
- Garden maintenance: soil, insect management
- Plants: trees, natives, ornamental grasses
- Garden Travel: Les Quatre-Vents & Reford, Highline (NYC), Brandywine Valley, Chicago, Central IL & Missouri Botanical Garden

Brief Biography

Pat de Valence has been gardening in the Greater Toronto Area for over 25 years, and has been a Master Gardener for 13. She is building her 3rd garden on a ½-acre plot on the Oak Ridges Moraine.

Pat is keenly interested in garden design, particularly architectural elements and designs that attract wildlife and are low maintenance. She favours native & species plants, but also uses a range of non-natives to serve various design objectives. She’s an avid follower of landscape designers using a new planting method known as matrix planting. A frequent participant in garden tours, at home and abroad, she’s seen a wide range of approaches to design, the use of plant material and garden ornament—some successfully, some not. Pat’s talks share these ideas in a way that is accessible to home gardeners and with an engaging style.
