- Mobiles, Stables and Stamobiles
- Miniature Design – maximum fun in minimum space
- Parallel Design
- Stretch Design
- Designs with Fruits and Vegetables
- Holiday Planters
- European Trends in Floral Design
- More topics available by request

Brief Description: Presentations all include a Power Point presentation of my own photographs related to the topic.

Demos also include 4 or 5 designs created in front of the audience. Designs are usually available to the group as draw or auction prizes.

Workshops for up to 25 people, usually for 2 to 3 hours.

Brief Biography Ursula lives in a neighbourhood full of large trees and enjoys gardening in her shady backyard. Shortly after joining the Beach Garden Society 20 years ago, she tried entering a design in their monthly show. It was a disaster, but the members were so kind and encouraging, that she tried again, and again. As a judge of design and horticulture she enjoys seeing what gardeners around the province grow and show.

Her designs have been featured in magazines in New Zealand and England. In 2017, Ursula was pleased to win a gold at the World Association of Floral Artists' show.

Please attach photos or other material that may be used in our Newsletter, Website, Facebook and related online sites.

Please check here, if we have your permission to use your images for publicity
